From the Director's Desk

2022 has been an eventful year. The “Colonial Mindset” which has often beset India has received a resounding counter with Prime Minister Shri Narendra Modi led BJP government ushering in an era of development which is focusing on rejuvenating and relaying our cultural centres and nationalist icons and at the same time laying the foundations - economic, infrastructural, educational, technological and security. Marginalised icons, social reformers, revolutionaries, thinkers, who have contributed to India's awakening are being reinstated and their historic contribution recognised. For the first time in the history of independent India Netaji Subhas Chandra Bose's statue was installed in the heart of the national capital, adorning a place of pride along with the National War Memorial. The “Kingsway”, “Rajpath” was renamed by Prime Minister Modi as “Kartavya Path”, the Path of Duty, erasing forever one of our most enduring symbols of subjection. Similarly iconic Shivaji Maharaj's naval insignia has now been designated as the insignia of the Indian Navy. These steps and many others in various other fields reflect the rise of an India determined to emerge as a responsible and self-reliant power. The world too is increasingly looking at India and her emergence as a responsible power, as a power which is solution oriented and futuristic. India is playing major role in the shaping of a new world order.

In the last one decade, since 2013, Dr Syama Prasad Mookerjee Research Foundation (SPMRF), has ceaselessly undertaken various activities and outreaches and has contributed to knowledge generation and narrative building. Through discussion programmes, outreaches and public programmes, through research papers and a robust publication initiative it has contributed to the generation of a positive and affirmative narrative of how India is transforming and emerging.

It has involved a wide array of experts and opinion makers and received support from practitioners and influencers. It has emerged as a credible platform for work on policy and ideological issues and on the narrative of an aspirational India. It has consistently emerged as a globally recognised think tank - has figured among the top forty global think tanks, with political affiliation. This in itself is a landmark achievement. The Foundation continues to steadily disseminate the narrative of rising India and has made a space for itself in the overall think tank circuit of the country. In this work it has received unstinting support and cooperation from its team and elders as well. Without their guidance and support such landmarks would not have been possible.

In the coming years too SPMRF aspires to continue to strive and work with the same zeal and determination, with the aim of contributing to the emergence of “New India.”

इस पुस्तक की लेखिका प्रियम गांधी- मोदी ने बताया कि मुंबई, दिल्ली के अलावा कई दूसरे देशों में तीन महीने पहले ही इस पुस्तक का विमोचन हो चुका है। यह पुस्तक बेस्ट सेलर में भी शामिल है। उन्होंने बताया कि इस पुस्तक पर एक फिल्म (वेब सीरीज) भी बन रही है। यह जल्द रिलीज होगी। अगले हफ्ते इस पुस्तक का हिंदी संस्करण भी आ जाएगा।

आज देश में 190 करोड़ से ज्यादा वैक्सीन की डोज लग चुकी है, यह साधारण बात नहीं है। यदि दूसरी सरकार रहती तो लोग 10 साल बाद

“The gigantic task of reconstruction, cultural, social, economic and political can be rendered possible through coordinated efforts of bands of trained and disciplined Indians. Armed with the knowledge of Indian’s past glory and greatness, her strength and weakness, it is they who can place before their country a programme of work, which while loyal to the fundamental traditions of India civilisation will be adapted to the changing conditions of the modern world.”
